## Klawock - Public Safety Building Phase II

**State Funding Requested: \$1,441,022****House District: 5 / C**

One-Time Need

**Brief Project Description:**

Construct Phase II of the Klawock Public Safety Building.

**Funding Plan:**

Total Project Cost: \$1,441,022

Funding Already Secured: (\$0)

FY2013 State Funding Request: (\$1,441,022)

Project Deficit: \$0

*Funding Details:**FY2012 Designated Legislative Grant***Detailed Project Description and Justification:**

The Klawock Public Safety Building Phase II will allow the Klawock Public Safety Department access to 4 additional holding cells that are needed here on Prince of Wales Island; to include a juvenile holding facility. We lease space in the Public Safety Building to the Alaska State Troopers and would be able to offer additional services to enhance the services that they offer the general public on Prince of Wales Island. The addition would also house a dispatch center and would allow Klawock to handle its own dispatch services going forward into the future.

**Project Timeline:**

The design of the building is complete. Once funding is secured we can put this project out to bid and get construction underway. Expenditures will occur in FY13.

**Entity Responsible for the Ongoing Operation and Maintenance of this Project:**

City of Klawock

**Grant Recipient Contact Information:**

Name: Leslie Isaacs

Title: City Administrator

Address: 550 Summit Street  
Klawock, Alaska 99925

Phone Number: (907)755-2261

Email: lisaacs@cityofklawock.com

Has this project been through a public review process at the local level and is it a community priority? ☒ Yes ☐ No

TO: Mayor Donald Marvin

FROM: Linda Millard, AIA

RE: Klawock Public Safety Building – Phase II

---

Dear Mayor Marvin,

It is exciting to hear that the City of Klawock is pursuing funding for the next phase of the Klawock Public Safety Building. The first phase renovated an existing building to provide offices for the State Troopers and City Police. The proposed addition of 2100 sf to the north will provide an area for intake, booking, and a small detention component with three secure cells. An enclosed vehicle sally port of 322 sf was also a part of the phase. This addition was designed and permitted in 2003 as part of the overall project, but not constructed due to funding constraints.

To construct this portion of the facility at this date, our opinion of the cost would be as follows:

Building: 2,100 sf x \$475./sf:	\$ 997,500.
Vehicle Sally Port: 322 sf x \$200./sf:	\$ 64,400.
Site Improvements & Parking: (Allow)	<u>\$ 50,000.</u>
Subtotal – Construction Costs:	\$1,111,900.
Contingency: 20%	<u>\$ 222,380.</u>
Construction Costs:	\$1,334,280.
A/E Fees, Permits, Project Manage: (Allow 8% of Construction Costs)	<u>106,742.</u>
Project Costs:	<b>\$ 1,441,022.</b>

Please call if you have any further questions. We are transmitting a copy of the floor plans for this area as well as the elevations to include in your funding request.

Sincerely, Linda Millard, AIA
